ADRIANO SILVA

PROFILE

I am a graduate student in biochemistry, currently attending a master's degree in bioinformatics where I have been especially interested in data science.

SOFT SKILLS

- TeamWork
- Work under pressure
- Resilient
- Adaptability

EDUCATIONAL HISTORY

Degree in biochemistry

Universidade do Minho | 2017 - 2020

- Laboratory skills: electrophoresis, infrared spectroscopy (ftir), spectrophotometer, chromatography
- Knowledge in the field of Biology, Chemistry and Pharmaceutics
- Development of the project: ""Novas moléculas com efeito terapêutico no cancro colorretal"

Master's in bioinformatics

Universidade do Minho | 2021 - Present

- Programming languages, based on Python, Linux Command Line, R, Docker, SQL and no SQL databases, Ml algorithms
- Systems Biology, genome-scale metabolic reconstruction using Cobra environments (COBRApy and MEWpy)
- Master's Project: "Development of text-mining solutions to facilitate lipid metabolism interpretation in Genome-Scale Metabolic Models"
- Enrolled in developing a web-app to facilitate lipid metabolism interpretation in GSM models for my thesis.

WORKSHOPS AND EVENTS

XI ENEBIOQ
Porto | 2018

XII ENEBIOQ
Aveiro | 2019

Bioinformatic Open Days
Braga| 2022

IX Jornadas de Bioquímica
Universidade do Minho | 2018

- WorkShop - "Reconstrução de modelos metabólicos usando a ferramenta bioinformática merlin"

SKILLS

Python

Pandas

Git

R

Docker

MySQL

Neo4J

HTML

Laboratory skills

English

I'm actually a Biochemistry student cleverly disguised as a Python developer. It has been now 2 years of this adventure and I couldn't be more excited. I'm a creative and self-motivated Python enthusiast who strongly believe the WORLD RUNS ON CODE... and biology too.

EXTRACURRICULAR ACTIVITIES

- Participate in volunteer actions in my town
- Participate in a camping and mountaineering club
